Rooftop Solar Potential Assessment Report

Generated Date
27 Jul 2026

Location:	ahmednagar, maharashtra	Available Roof Area:	120.0 m²
-----------	-------------------------	----------------------	----------

RECOMMENDED SYSTEM SIZE 12.0 kWp Kilowatt-peak rooftop array capacity	EST. ANNUAL GENERATION 14,126 kWh/year Clean electricity generated annually
ESTIMATED BILL SAVINGS Rs. 105,941 /year Based on avg Rs. 7.5/kWh grid power offset	EST. CO2 REDUCTION 11.6 Tons/year Greenhouse gas emissions avoided annually

Underlying Irradiance Data: Avg Annual Irradiance = 4.30 kWh/m²/day

Data Source: Based on verified district-level NITI Aayog Solar Radiation database.

Government Schemes & Subsidies

• PM Surya Ghar: Muft Bijli Yojana Central financial assistance up to Rs. 78,000 for residential rooftop solar systems (1kW to 3kW+), with up to 300 free units of electricity/month. Helpline: 15555 Portal: https://pmsuryaghar.gov.in/#/
• MSEDCL Residential Solar Rooftop Subsidy State and central subsidy pool offering up to 40% rebate for home rooftop solar power installations across Maharashtra. Helpline: 1912 Portal: https://www.mahadiscom.in/ismart/
• PM-KUSUM Yojana - Mukhyamantri Saur Krishi Pump Yojana (Maharashtra) Combined central and Maharashtra state subsidy of up to 95% (90% for general category, 95% for SC/ST farmers) on standalone solar agricultural pumps, implemented via MEDA and MSEDCL. Helpline: 1912 Portal: https://mahauria.com
